All patients receive a brief physical exam before surgery and receive quality pre and post operative pain medication. Cats and dogs are eligible for surgery at 8 weeks of age and 2 lbs.

Animals with live fleas will receive a Capstar - no exceptions – at a cost of \$3. Capstar kills live fleas immediately but does not provide long-term flea control. We do this to protect your animal and the other animals in our care.

Please call our clinic for information on our reduced cost S.N.A.P. (Spay Neuter All Pits) and Feral Cat Programs.
